

CONFINED SIXTY YEARS

A Case of Unparalleled Cruelty Near Auburn, New York.

Angelina Hoyt, insane, kept in a Pen in the corner of a Woodshed Entirely Nudely With Only Coarse Straw for a Bed.

AUBURN, N. Y., Sept. 20.—An almost unparalleled case of confinement discovered by John Moulvey, agent of Henry Bergh, acting for the Humane Society in Catskills, from this city, a woman of sixty years, a lunatic by birth, was found in a pen eight by twelve feet, entirely naked, groveling in filth. Her name is Angelina Hoyt, and she has a third interest in a farm of one hundred acres, the homestead in which she has been confined her entire life. The room is in the corner of a woodshed, and is without a window. It has one door and a small window, which is closed with a board, admitting no light. Her father was a pious man, and began the course of treatment which has been continued since his death by her brother and sisters. Her mother died, three years ago, and her only attendant is a sister aged fifty, a confirmed cyanotic. Her brother-in-law, James B. Knapp, operates the farm, and the only excuse given by him is that the present treatment is less cruel than that in an asylum. The pen is supposed to be cleaned once a week, when fresh straw is thrown in. The woman sits picking at the straw all the time, and when dressed, tears her clothing. Before she lost her teeth she would tear a buffalo robe into pieces. The relatives of the woman are wealthy, and it is thought she is kept in this condition to save her property for herself. Previous to the admission of Moulvey and his companion Knapp threw a shirt over the woman and gathered the filth in a corner, covering it with an old carpet. The woman has no gray hair, her cheeks are red, and she is apparently healthy, notwithstanding her wretched surroundings. She has lost the use of her lower limbs and cannot stand. The overseer of the poor will send the woman to the asylum as soon as an order can be obtained, and her custodian will be proceeded against for misfeasance. The woman has a brother in affluent circumstances living near.

KILLING OFF JERSEY CATTLE.

Taking Effective Measures to Stamp Out Pseudo-Pneumonia.

CHICAGO, Sept. 20.—Dr. E. D. Salmon, Chief of the Bureau of Industry at Washington, was at the Palmer yesterday. Among his duties are the inspection of the pseudo-pneumonia district in the East, the collection of statistics, the quarantine of imported cattle, the scientific investigation of contagious diseases and the pseudo-pneumonia in the West. Speaking of the disease at present Dr. Salmon said: "There have been recent developments. I just visited the farm of a Mr. Horgan, of Abingdon, Illinois, near Galesburg. He had a herd of polled Angus cattle suffering as reported from pseudo-pneumonia. Upon examination I found nothing of the disease. I also visited Mr. Farwell's herd at Lake Forest, and I saw the lungs and liver of some of the cattle which were affected with tuberculosis, but the history given in the case was not one that we would expect with this disease. I reserved my opinion in the case, but told Mr. Farwell there were no signs of pneumonia. To-night I go to Troy, Ohio, to have the animals, which are thoroughbred Jerseys, slaughtered. The herd to which I refer numbers about sixty, twelve of which are affected with the disease. There are no other herds in Illinois affected with the disease. We hope to stamp it all out by the aid of the State Legislature, and feel in hopes that Congress will give us power to get rid of it in other states."

NO ACTION YET

On the Proposed Enlargement of the Welland Canal.

OTTAWA, Ont., Sept. 20.—An impression appears to have gained ground that the Dominion Government has adopted the report recently made by Douglas, an employee of the Department of Railways and Canals, suggesting the enlargement of the Welland and St. Lawrence Canals. The fact is that the Acting Minister of Railways, for his own information, ordered Assistant Engineer Douglas to compile certain facts relating to canal traffic, and note all points which might assist the Government in arriving at some definite policy in regard to the canal system. So far from the Government having decided to act on the report of Douglas, Minister of Railways and Canals, he states that he has never said it before his colleagues in council. As regards deepening the Welland Canal to fourteen feet draft, that was decided upon long before Douglas made his report, and tenders, it is understood, will be called for the construction of the work early next month.

AN ATHLETIC WOMAN

Hurls an Officer Down Stairs and Breaks His Neck.

ALBANY, N. Y., Sept. 20.—City Marshal Peter Clark, aged sixty, went to the house of John O'Hara, to serve a summons. Mr. Clark was not at the door by O'Hara's wife, who had been drinking. She attempted to prevent the marshal from entering. He persisted, when a struggle ensued. The woman, who is vigorous and athletic, threw him over the railing of the stoop, breaking his neck. He fell head first into the area beneath, and died instantly. The woman was arrested and committed. She denies having hurt the officer, insisting that he accidentally fell over the railing while leaning against it. Her husband, however, says he saw the woman throw Clark over the railing. Clark was formerly a well known business man here.

Another Brute Arrested.

CORNWALL, N. Y., Sept. 20.—Carrie Smith, the young daughter of a prominent citizen, was attacked by a negro while walking in the park from the depot to her brother's house in Havertown. She was knocked down but fought desperately, screaming and scratching her assailant's face. Finally a chance passer-by heard her screams and came to the rescue, frightening the miscreant away. The negro, named George Hall, has been arrested. His face is lacerated. He was away from home that night. He is strongly guarded.

SALT RHEUM

And Every Species of Itching and Burning Diseases Positively Cured.

ECZEMA, or salt rheum, with its agonizing itching and burning, instantly relieved by a wondrous ointment, known as a single application of Cuticura, the great skin cure. This ointment, with two or three doses of Cuticura Resolvent, the new blood purifier, cures the blood cure, the perspiration cool and purifying, the bowels open, the skin and hair healthy, and the patient cured. Every species of itching, scaly, and pimply humors of the scalp and skin, when the best physicians and all known remedies fail.

Will McDonald, 2342 Dearborn St., Chicago, gratefully acknowledges a cure of salt rheum on his head, face, arms, and legs for years, not able to walk except on hands and knees for one year; not able to help himself for eight years; tried hundreds of remedies; doctor pronounced him a hopeless case; but he was cured by Cuticura Resolvent, a single application internally, and Cuticura and Cuticura Soap (the great skin cure) externally.

Charles Houghton, Esq., lawyer, 28 State street, Boston, reports a case of salt rheum which he observed for ten years, which covered the patient's body and limbs, and which all known medical treatment had been applied without benefit, which was completely cured solely by the CUTICURA REMEDIES, leaving a clean and healthy skin.

F. B. Drake, Esq., Detroit, Mich., suffered untold tortures from salt rheum which appeared on his head, face, and neck, and nearly destroyed his eye. A letter the most careful doctoring and all known remedies failed to relieve him, he used the Cuticura Remedies, leaving a clean and healthy skin.

Mr. John Thiel, Wilkesbarre, Pa., writes: I have suffered from salt rheum for over eight years, at times so bad that I could not attend to my business for weeks at a time. Three boxes of Cuticura, and four bottles Resolvent have entirely cured me of this disease.

Sold by all druggists. CUTICURA, 64 cents Resolvent, 50c; Soap, 25 cents. For sale by DRUG AND CHEMICAL CO., Boston, Mass. Send for "How to Cure Skin Diseases."

CUTICURA SOAP. An Equine Toilet, Bath, and Shaving Soap.
